

To Cordivari's customers

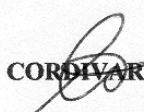

Object: Declaration of conformity of the containers, VOLANO TERMICO PDC PENSILE

The tank is built by Cordivari in compliance with the EU directive 2014/68. For article 4.3. of the same directive the tank must not be CE marked.

In compliance with the EU directive 2014/68 as well as with the regulations N. 812/2013 and N. 814/2013 issued by the directive 2009/125 / CE (ErP - ecodesign requirements of energy-connected appliances) and by Directive 2010/30 / EC (energy labeling of the same), the technical and heat dispersion data together with the energy classes are shown on the labels / technical sheets attached to the product. These labels / technical data sheets are to be considered an integral part of these operating instructions.

The tanks are made of carbon steel "S 235 JR UNI EN 10025", and are suitable to withstand a maximum working pressure of 4 Kg / cm² at the temperature INCLUDING BETWEEN -10 and + 95 ° C. Said tanks have been subjected to a water tightness test equal to 1.5 times the working pressure.

For installation and maintenance, we recommend to carefully follow the information provided in our technical data sheet and catalogs.
